# Internet Predators

## Tips for keeping your child safe:

- #1. Never give your password to anyone outside your house.
- #2. Never send photos over the internet.
- #3. Know your child's password.
- #4. Do not post real or accurate information in your profile on-line.

Open Arms offers a look into the methods predators use to lure your children on the internet.

These presentations can be given to anyone in the community & tailored to fit any time frame.

## **Presentations Include:**

- Culture & thought process of predators
- Methods used to approach children on-line
- Response to if your child is approached
- Safety tips for you & your family

## Statistics:

of Children ages 10—17:

- 50% have typed in a chat room or instant messaged a stranger
- 20% have met a stranger from the internet in person
- 42% have seen on-line pornography
